

PROGRAMME SPECIFICATION

This document describes the **Joint Honours Degree programme in History and Music**. For Joint and Combined Honours Degree programmes, please also refer to the equivalent document(s) for the other subject(s). This specification is valid for new entrants from **September 2011**.

The Joint Degree's principal aim is to allow students to pursue the study of Music alongside that of History, placing Music historical context as well as achieving an understanding of historical developments enhanced by the insights provided through the study of Music and its more significant theoretical and practical frameworks. In meeting this principal aim the programme also:

- Provides a systematic understanding and knowledge of Music theory and practice in an historical context;
- Encourages a critical awareness of problems in Music and History in terms of both their contemporary complexities and their historical bases;
- Provides theoretical insights and methodological techniques relevant to the development and interpretation of knowledge in History and Music and to the evaluation of current research and scholarship in the fields;
- Fosters an independent learning ability for continued intellectual development;
- Provides an opportunity for students to obtain an undergraduate qualification in History and Music.

The programme is normally delivered in three stages, each of which comprises one year of full-time study during which the student must follow courses to the value of four units (one unit is equivalent to 30 national credits). The programme comprises 'core' disciplinary courses, including a compulsory stage one common to all degree programmes in the departments, and 'optional' specialist courses, with an extended essay in the final stage. Whilst the development of disciplinary-specific skills are emphasised in the 'core' courses, the specialist options provide focused opportunities to examine the application of these skills. Moreover, the multi-disciplinary common first year, and the opportunity to take courses offered in complementary disciplines gives a heightened appreciation of disciplinary distinctiveness.

Whilst Royal Holloway keeps all its information for prospective applicants and students under review, programmes and the availability of individual courses are necessarily subject to change at any time, and prospective applicants are therefore advised to seek confirmation of any factors which might affect their decision to follow a specific programme. In turn, Royal Holloway will inform applicants and students as soon as is practicable of any substantial changes which might affect their studies.

Teaching and Learning

Teaching and learning on the Programme draws upon the methods and concepts used to develop skills and knowledge in the different disciplines, and to conduct historical scholarship. It is also very strongly informed by the current research interests of the teaching staff from the two departments contributing courses to the Programme. This is particularly the case with the 2nd and 3rd Year options, all of which are offered by staff based on their own individual research interests (fully consistent with the College's approach to Research led Teaching).

The main methods used to develop knowledge and understanding are: formal lectures by academic staff, tutorials and seminar discussions based on a combination of staff led sessions and student participation (including presentations). There is also guided independent research and study for the 3rd Year Dissertation. Where appropriate, music tuition will also be used.

Assessment will be by a combination of assessed coursework and examination as indicated in individual Course Specifications. Full details of the assessments for individual courses can be obtained from the [Department](#).

Progression and award requirements

The progression and award requirements are essentially the same across all Honours Degree programmes at Royal Holloway. Students must pass units to the value of at least three units on each stage of the programme taught at Royal Holloway. On some programmes there may be a requirement to pass specific courses in order to progress to the next stage, or to qualify for a particular degree title (see programme structure above). Progression through the programme is monitored through attendance and performance in coursework assignments and the completion and passing of courses each year. Students are considered for the award and classified on the basis of a weighted average. This is calculated from marks gained in courses taken in stages two and three, and gives twice the weighting to marks gained in stage three. In order to qualify for the award, students must gain a weighted average of at least 35%.

All first year students on single joint or combined honours programmes offered all or in part by departments or schools in the Faculty of Arts & Social Science are required to pass a Moodle-based writing skills quiz in order to progress into the second year of study. The pass mark for the test is 60%. Certificates of Distinction are awarded to students who achieve at least 80% in the quiz. Students may attempt the quiz as often as they wish with no penalties or capping. Students who meet the requirements for progression as stipulated in the [College's Undergraduate Regulations](#) (Section: Conditions for progression to the next stage) but fail to pass the Moodle-based quiz will not be permitted to progress into their second year of academic study at the College.

Admission requirements

The Department's standard conditional offer is available on the [Course Catalogue](#) web page. However, the Department also has considerable flexibility in its admissions and offers policy and strongly encourages applications from non-standard applicants. Students whose first language is not English may also be asked for a qualification in English Language at an appropriate level. It may also be helpful to contact the [Admissions Office](#) for specific guidance on the entrance requirements for particular programmes.

Further learning and career opportunities

The programmes provide a firm foundation for postgraduate study and research, and some of the more successful graduates can expect to go on to postgraduate programmes in both Royal Holloway and elsewhere. The programmes also provide graduates with a range of intellectual, personal and social skills that are transferable to a wide variety of employment opportunities. Careers which will especially suit History graduates include work in the civil service, local government, public and private sector management, political research and lobbying, teaching, and journalism and the media. Students on the programmes are able to take full advantage of the resources available at the College [Careers Service](#).

Indicators of quality and standards

A Teaching Quality Assessment (TQA) carried out by the Quality Assurance Agency in November 1993 rated the Department's educational provision as 'excellent'. In designing and delivering its programmes, the Department draws extensively upon the research activities and expertise of its staff, particularly in final year undergraduate course units and dissertations, and postgraduate programmes.

Royal Holloway's position as one of the UK's leading research-intensive institutions was confirmed by the results of the most recent Research Assessment Exercise (RAE 2008) conducted by the Higher Education Funding Council (HEFCE). The new scoring system for the RAE 2008 measures research quality in four categories, with the top score of 4* indicating quality that is world-leading and of the highest standards in terms of originality, significance and rigour. 60% of the College's research profile is rated as world-leading or internationally excellent outperforming the national average of 50%. The College is ranked 16th in the UK for research of 4* standard and 18th for 3* and 4* research. The Department of History was ranked joint 10th in the top 10 universities in the country in terms of proportion of 3* and 4* research. Sixty percent (60%) of the Department's research profile is of 3* and 4* standard. A further eight departments are in the top 10 ranked by proportion of 3* & 4* research: Biological Sciences (joint 3rd), Drama (joint 9th), Earth Sciences (joint 7th), Economics (joint 9th), Geography (joint 9th), German (joint 5th), Media Arts (joint 6th) and Psychology (joint 5th).
