**Tuna pasta bake***

- **40 minutes**
- **Easy to make**
- **Serves 4**

*Taken from TheStudentFoodProject.com, a recipe contributed by Alice Joslin, Royal Holloway, University of London

**Ingredients**

- one large tin of chopped tomatoes
- ½ teaspoon mixed dried herbs
- 120g can of tuna, drained
- One small can sweetcorn
- 250g dry pasta
- 60g grated cheese

**Method**

On a gentle heat, warm through the tomatoes with the herbs for 2 mins, then stir in the tuna and sweetcorn. In a separate pan, cook the pasta for just under the time specified on the packet, drain, and tip into the pan with the sauce, stir and combine.

Into an ovenproof dish, layer the pasta with the grated cheese, finishing with cheese on top. Bake in the oven for 20 minutes until the pasta is cooked and the cheese is melted.
