

MEng Electronic Engineering with a year in Industry (H6H1)

September 2017 intake

The purpose of this information sheet is to provide prospective students and applicants with further information about the nature of this degree, in order to help you decide if it is the right choice for you. Should you have any further questions, contact information is provided at the end of the flyer.

Section 1 – degree programme structure

Awarding institution	Royal Holloway
Accreditation(s) (where applicable)	Applied for Institution of Engineering and Technology (IET) accreditation but the visit can only happen when the 2 nd year cohort is in place. It is expected that the 2017 cohort will be given accredited status on completion of the programme (accreditation application currently under review).
Standard length of degree	5 years

The following table summarises the compulsory modules, which Royal Holloway refers to as mandatory course units, offered on this degree programme each year:

Year 1						
Course unit name	Methods of teaching		Methods of assessment			Credits
	Contact hours	Self-study hours	Written exam	Present ation	Course-work	
Embedded systems team project 1	110	190	-	25	75	30
Programming in C++	55	95	60	-	40	15
Mathematics for Scientists 1	69	81	80	-	20	15
Electronic circuits and components	55	95	60	-	40	15
Communications engineering 1	55	95	60	-	40	15
Principles of sustainable engineering	55	95	75	-	25	15
Mathematics for Scientists 2	69	81	80	-	20	15
Year 2						
Course unit name	Methods of teaching		Methods of assessment			Credits
	Contact hours	Self-study hours	Written exam	Present ation	Course-work	
Embedded systems team project 2	110	190	-	25	75	30
Software engineering for electronics	55	95	50	-	50	15
Communications engineering 2	55	95	50	-	50	15
Energy generation, conversion and distribution	55	95	75	25	20	15
Control engineering	55	95	50	-	50	15
Digital coding and data networking	55	95	50	-	50	15
Electronic materials and devices	55	95	75	25		15

Year 3						
Course unit name	Methods of teaching		Methods of assessment			Credits
	Contact hours	Self-study hours	Written exam	Present ation	Course-work	
Individual Project	147	453	-	30	70	60
Signal Processing	49	101	50	-	50	15
Year 4 Year in Industry EE3001						
Year 5						
Course unit name	Methods of teaching		Methods of assessment			Credits
	Contact hours	Self-study hours	Written exam	Present ation	Course-work	
Group Project	119	481	-	15	85	60
Research Report	26	274	-	-	100	30

The fourth year of this degree programme will be spent on a work placement. Students are supported by their academic department and the Royal Holloway Careers Service to find a suitable placement. However, Royal Holloway cannot guarantee that all students who are accepted onto this degree programme will secure a placement, and the ultimate responsibility to secure a placement lies with the student. This year forms an integral part of the degree programme and students will be asked to complete assessed work. The mark for this work will count towards the degree.

In addition to these mandatory course units, there will be a number of optional course units available during the course of your degree. The following table lists a selection of optional course units that are likely to be available. Please note that although the College will keep changes to a minimum, new units may be offered or existing units may be withdrawn, for example, in response to a change in staff. You will be informed if any significant changes need to be made.

Year 3(BEng)	Year 5 (MEng)
Course unit name	Course unit name
Renewable energy systems	Advanced wireless communications
Principles of engineering company management	Engineering leadership
Smart transportation	Electronics in advanced manufacturing
Voice and music technologies	Personal communications technology
Human factors and healthcare engineering	Imaging systems for medicine and industry
Introduction to Information Security	App programming

As part of your degree programme you may be required to complete a course to develop your study skills, for example a course in academic writing skills. Courses such as these often do not carry credit but passing the course may be a requirement to progress to the next year of study.

Section 2 – degree programme costs

H/EU tuition fee 2017/18*	£9,250
Overseas tuition fee 2017/18**	£15,600
Other essential costs	Small charge of £20 for a basic toolkit, lab-coat and safety glasses. Costs incurred by students while on a Year in Industry/Business vary depending on the nature and location of the placement. For further information please contact the department.

*Tuition fees for UK and EU nationals starting a degree in the academic year 2017/18 will be £9,250 for that year. This amount is subject to the UK Parliament approving a change to fee and loan regulations that has been proposed by the UK Government. In the future, should the proposed changes to fee and loan regulations allow it, Royal Holloway reserves the right to increase tuition fees for UK and EU nationals annually. If relevant UK legislation continues to permit it, Royal Holloway will maintain parity between the tuition fees charged to UK and EU students for the duration of their degree studies.

** Royal Holloway reserves the right to increase tuition fees for overseas fee paying students annually. Tuition fees are unlikely to rise more than 5% each year.

For further information please see Royal Holloway's [Terms & Conditions](#).

***These estimated costs relate to studying this particular degree programme at Royal Holloway. Costs, such as accommodation, food, books and other learning materials and printing etc., have not been included, and further information regarding these can be found on our website.

Section 3 – useful vocabulary

We understand some of the terminology used in this document may be new to you, and may differ from that used by other universities. To help with this, we have provided a brief description for some of the most important terminology:

Degree programme – Also referred to as 'degree course' or simply 'course', these terms refer to the qualification you will be awarded upon successful completion of your studies.

Course unit – Also referred to as 'module', this refers to the individual units you will study each year to complete your degree programme. Undergraduate degrees at Royal Holloway comprise four full units, or a combination of full (30 credit) and half (15 credit) units, to the value of 120 credits per year. Mandatory course units must be taken by every student on the relevant degree programme. Some of these mandatory course units must be passed for progression or a particular degree title. On some degree programmes a certain number of optional course units must be passed for a particular degree title.

H/EU – Different categories of students pay different levels of tuition fees. H/EU stands for students with Home or European Union fee status.

Overseas – Non-EU students are liable to pay the overseas rate of tuition fees, and are sometimes also referred to as international students.

Section 4 – contact information

If you have any further questions, you can contact the Admissions team by email at study@royalholloway.ac.uk.

Please note that this information is final at the time of publication (3 April 2017) and supersedes any previous information provided in publications or on Royal Holloway's website.
