

MSci Environmental Geoscience with a Year of International Study (FP42) September 2017 intake

The purpose of this information sheet is to provide prospective students and applicants with further information about the nature of this degree, in order to help you decide if it is the right choice for you. Should you have any further questions, contact information is provided at the end of the flyer.

Section 1 – degree programme structure

Awarding institution	Royal Holloway, University of London
Accreditation(s) (where applicable)	None
Standard length of degree	Four Years

The following table summarises the compulsory modules, which Royal Holloway refers to as mandatory course units, offered on this degree programme each year:

Year 1						
Course unit name	Methods of teaching		Methods of assessment			Credits
	Contact hours	Self-study hours	Written exam	Practical	Coursework	
Global Tectonics	55	95	80%	0	20%	15
Introductory Sedimentology	102	102	70%	0	30%	15
Environmental Issues with Maths	53	97	70%	0	30%	15
Igneous and Metamorphic Geology	90	90	60%	30%	10%	15
Physics and Chemistry of Earth	90	90	70%	0	30%	15
Earth Structures	61.5	88.5	60%	0	40%	15
Scientific and Geological Field Skills	122	28	0	0	100%	15
Introductory Palaeontology	60	90	60%	0	40%	15
Year 2						
Course unit name	Methods of teaching		Methods of assessment			Credits
	Contact hours	Self-study hours	Written exam	Practical	Coursework	
Stratigraphy and History of Life	60	90	60%	0	40%	15
Regional Geology	60	90	60%	0	40%	15
Geohazards	50	100	60%	0	40%	15
Geochemistry	50	100	50%	30%	20%	15

Geological Field skills for Environmental Students	162	138	0	20%	80%	15
Year 4						
	Methods of teaching		Methods of assessment			
Course unit name	Contact hours	Self-study hours	Written exam	Practical	Coursework	Credits
Individual Environmental Geoscience Project	132	528	0	20%	80%	60
Evolution of the Modern Earth	180	90	60	40		15
Field and Research Skills						15

The third **year of this degree programme** will be spent studying abroad. Royal Holloway has a number of formal partnerships with institutions in Europe and further afield. Students should be aware that placement at a host institution is a competitive process involving an application to the university abroad and this process is supported by Royal Holloway. This year forms an integral part of the degree programme. Marks obtained for courses taken at the institution abroad will be credited towards their degree.

In addition to these mandatory course units, there will be a number of optional course units available during the course of your degree. The following table lists a selection of optional course units that are likely to be available. Please note that although the College will keep changes to a minimum, new units may be offered or existing units may be withdrawn, for example, in response to a change in staff. You will be informed if any significant changes need to be made.

Year 1	Year 2	Year 4
	Igneous and Metamorphic Geology	Research proposal
	Applied Geophysics	Modern Climate Change
	Structural Analysis and Remote Sensing	Water quality
	Sedimentary basin analysis	Air pollution
	Computational Earth Sciences	Environmental inorganic analysis
		Contaminated land

As part of your degree programme you may be required to complete a course to develop your study skills, for example a course in academic writing skills. Courses such as these often do not carry credit but passing the course may be a requirement to progress to the next year of study.

Section 2 – degree programme costs

H/EU tuition fee 2017/18*	£9,250
Overseas tuition fee 2017/18**	£15,600
Other essential costs ***	£100 for a set of essential field work equipment, for example a hard hat, compass. £150 per year contribution towards field trip costs.

*Tuition fees for UK and EU nationals starting a degree in the academic year 2017/18 will be £9,250 for that year. This amount is subject to the UK Parliament approving a change to fee and loan regulations that has been proposed by the UK Government. In the future, should the proposed changes to fee and loan regulations allow it, Royal Holloway reserves the right to increase tuition fees for UK and EU nationals annually. If relevant UK legislation continues to permit it, Royal Holloway will maintain parity between the tuition fees charged to UK and EU students for the duration of their degree studies.

** Royal Holloway reserves the right to increase tuition fees for overseas fee paying students annually. Tuition fees are unlikely to rise more than 5% each year.

For further information please see Royal Holloway's [Terms & Conditions](#).

***These estimated costs relate to studying this particular degree programme at Royal Holloway. Costs, such as accommodation, food, books and other learning materials and printing etc., have not been included, and further information regarding these can be found on our website.

Section 3 – useful vocabulary

We understand some of the terminology used in this document may be new to you, and may differ from that used by other universities. To help with this, we have provided a brief description for some of the most important terminology:

Degree programme – Also referred to as 'degree course' or simply 'course', these terms refer to the qualification you will be awarded upon successful completion of your studies.

Course unit – Also referred to as 'module', this refers to the individual units you will study each year to complete your degree programme. Undergraduate degrees at Royal Holloway comprise four full units, or a combination of full and half units, to the value of 120 credits per year. Mandatory course units must be taken by every student on the relevant degree programme. Some of these mandatory course units must be passed for progression or a particular degree title. On some degree programmes a certain number of optional course units must be passed for a particular degree title.

H/EU – Different categories of students pay different levels of tuition fees. H/EU stands for students with Home or European Union fee status.

Overseas – Non-EU students are liable to pay the overseas rate of tuition fees, and are sometimes also referred to as international students.

Section 4 – contact information

If you have any further questions, you can contact the Admissions team by email at study@royalholloway.ac.uk.

Please note that this information is final at the time of publication (22/03/2017) and supersedes any previous information provided in publications or on Royal Holloway's website.
