

Royal Holloway, University of London
Programme specification for an undergraduate award
BSc Criminology and Psychology with a Year in Industry (LC38)

Section 1 – Introduction to your programme

This programme specification is a formal document, which provides a summary of the main features of your programme and the learning outcomes that you might reasonably be expected to achieve and demonstrate if you take full advantage of the learning opportunities that are provided. Further information is contained in the College prospectus, and in various handbooks, all of which you will be able to access online. Alternatively, further information on the College's academic regulations and policies can be found [here](#). Further information on the College's Admissions Policy can be found [here](#).

Your degree programme in Criminology and Psychology with a Year in Industry is delivered in three stages, each of which comprises one year of full-time study during which you must follow courses to the value of four units (one unit is equivalent to 30 national credits). The Criminology and Psychology with a Year in Industry programme is delivered in four stages with stage three consisting of work experience of between six and twelve months in an organisation or institution approved by the School of Law as having a function relevant and suitable to the degree programme. For stage three of the programme you must take one 30 credit course. The curriculum is based around a core of mandatory units. Stage one provides a foundation for the later stages by providing a grounding in the main areas of psychology and criminology. In stage two, several of these areas are developed further and in greater depth. In stage three (stage four for Year in Industry programme), you are given the opportunity to study specialist areas of psychology and criminology.

For joint and combined honours programmes, please refer to the programme specification for your secondary department's corresponding single honours programme for further information on educational aims, and learning outcomes.

While Royal Holloway keeps all the information made available under review, programmes and the availability of individual course units, especially optional course units are necessarily subject to change at any time, and you are therefore advised to seek confirmation of any factors which might affect your decision to follow a specific programme. In turn, Royal Holloway will inform you as soon as is practicable of any significant changes which might affect your studies.

The following is brief description for some of the most important terminology for understanding the content of this document:

Degree programme – Also referred to as 'degree course' or simply 'course', these terms refer to the qualification you will be awarded upon successful completion of your studies.

Course unit – Also referred to as 'module', this refers to the individual units you will study each year to complete your degree programme. Undergraduate degrees at Royal Holloway comprise four full units, or a combination of full and half units, to the value of 120 credits per year. On some degree programmes a certain number of optional course units must be passed for a particular degree title.

Section 2 – Programme details			
Date of specification update	October 2017	Location of study	Egham Campus
Programme award and title	BSc Criminology and Psychology with a Year in Industry	Level of study	Undergraduate
Programme code	3097	UCAS code	LC38
Year of entry	2019/20		
Awarding body	Royal Holloway, University of London		
Department or school	School of Law	Other departments or schools involved in teaching the programme	Psychology
Mode(s) of attendance	Full-time	Duration of the programme	Four Years
Accrediting Professional, Statutory or Regulatory Body requirement(s)	British Psychological Society - The programme is accredited by The British Psychological Society. Accreditation provides Graduate Basis for Chartered Membership (GBC) for students who achieve at least a Lower Second Class Honours degree and who pass the dissertation.

2	PS2050	Psychology: Personality and Individual Differences	21	129	70%	0	30%	15	5	MC
2	PS2080	Conceptual Issues in Psychology	21	129	70%	0	30%	15	5	MC
3	CR3011	Criminology: Dissertation	0	300	0	0	100%	30	6	MNC
3	PS2021	Psychology: Cognitive Psychology	21	129	100%	0	0	15	5	MC
3	PS2061	Psychology: Brain and Behaviour	21	129	100%	0	0	15	5	MC

This table sets out the most important information for the mandatory courses on your degree programme. These courses are central to achieving your learning outcomes, so they are compulsory, and all students on your degree programme will be required to take them. You will be automatically registered for these courses each year. Mandatory courses fall into two categories; 'condonable' or 'non-condonable'.

In the case of mandatory 'non-condonable' (MNC) courses, you must pass the course before you can proceed to the next year of your programme, or to successfully graduate with a particular degree title. In the case of mandatory 'condonable' (MC) courses, these must be taken but you can still progress or graduate even if you do not pass them. Please note that although Royal Holloway will keep changes to a minimum, changes to your degree programme may be made where reasonable and necessary due to unexpected events. For example; where requirements of relevant Professional, Statutory or Regulatory Bodies have changed and programme requirements must change accordingly, or where changes are deemed necessary on the basis of student feedback and/or the advice of external advisors, to enhance academic provision.

*Contact hours come in various different forms, and may take the form of time spent with a member of staff in a lecture or seminar with other students. Contact hours may also be laboratory or, studio-based sessions, project supervision with a member of staff, or discussion through a virtual learning environment (VLE). These contact hours may be with a lecturer or teaching assistant, but they may also be with a technician, or specialist support staff.

**The way in which each course on your degree programme is assessed will also vary, however, the assessments listed above are all 'summative', which means you will receive a mark for it which will count towards your overall mark for the course, and potentially your degree classification, depending on your year of study. On successful completion of the course you will gain the credits listed. 'Coursework' might typically include a written assignment, like an essay. Coursework might also include a report, dissertation or portfolio. 'Practical assessments' might include an oral assessment or presentation, or a demonstration of practical skills required for the particular course.

3.2 Optional course units

In addition to mandatory course units, there will be a number of optional course units available during the course of your degree. The following table lists a selection of optional course units that are likely to be available. However, not all may be available every year. Although Royal Holloway will keep changes to a minimum, new options may be offered or existing ones may be withdrawn. For example; where reasonable and necessary due to unexpected events, where requirements of relevant Professional, Statutory or Regulatory Bodies (PSRBs) have changed and programme requirements must change accordingly, or where changes are deemed necessary on the basis of student feedback and/or the advice of External Advisors, to enhance academic provision. There may be additional requirements around option selection, so it is important that this specification is read alongside your department's Student Handbook, which you can access via their [webpage](#).

Year 1	Year 2	Year 3	Year 4
None	None	Spent in Industry (see Section 4)	Advanced & Applied Social Psychology
			Adult Psychological Problems
			Developmental Disorders
			Victims and Witnesses
			Criminal and Forensic Psychology
			Educational Psychology
			Gender, Sexuality and Crime
			Crime and the Media
			Crime and Literature
			Critical Readings in Criminology
			Race and Ethnicity in Contemporary Society
			Race, Crime and Justice
			Risk Insecurity and Terrorism (1)
			Risk Insecurity and Terrorism (2)
			Prisons

3.3 Optional course unit requirements

In stage four, choose options equal to the value of 60 credits (2 full units) from a list of Stage three courses offered by the Department. Students must select two 15 credit units with CR codes and two 15 credit units with PS codes. Option selections must be approved by the Academic Coordinator in the relevant department from the options available in any particular year.

Section 4 - Progressing through each year of your degree programme

For further information on the progression and award requirements for your degree, please refer to Royal Holloway's [Academic Regulations](#). As part of your degree programme you may also be required to complete a course to develop your academic writing skills. This course does not carry credit but passing it is a requirement to progress to the next year of study. The third year of this degree programme will be spent on a work placement. You are supported by your academic department and the Royal Holloway Careers Service to find a suitable placement. However, Royal Holloway cannot guarantee that all students who are accepted onto this degree programme will secure a placement, and the ultimate responsibility lies with the student. You will need to achieve an agreed level of academic performance to proceed onto, or remain on, a placement. On *the* BSc Criminology and Psychology with a Year in Industry this level is set at a Pass in Year 1 and Year 2 with a 2.1 average. This year forms an integral part of the degree programme and you will be asked to complete assessed work. The mark for this work will count towards the degree. For students on the Year in Industry programme, CR3511 Year in Industry is mandatory non-condonable and must be passed in order to qualify for the degree title Year in Industry.

Section 5 – Educational aims of the programme

The aims of this programme are:

- to develop a sound and extensive knowledge base in psychology and criminology;
- to produce a scientific understanding of mind, brain, behaviour, and experience, and of the complex interactions between these;
- to enable students to acquire the knowledge which will enable them to understand complex social problems;
- to present multiple perspectives in a way that fosters critical evaluation in Psychology and Criminology;
- to allow students to gain an understanding of real life applications of theory to the full range of experience and behaviour in Psychology and Criminology;
- to deliver teaching within a flexible and progressive structure which will enable students to acquire knowledge, understanding and appropriate skills relevant to Psychology and Criminology;
- to develop in students an understanding of the role of empirical evidence in the creation and constraint of theory and the way in which theory guides the collection and interpretation of empirical data in Psychology and Criminology;
- to provide knowledge of a range of research skills, techniques, and methods for investigating experience and behaviour in Psychology and Criminology;
- to provide students with the knowledge and skills to be able to appreciate and critically evaluate theory, research findings, and applications in Psychology and Criminology;
- to develop key communication and IT skills.

Section 6 - Programme learning outcomes

In general terms, the programmes provide opportunities for students to develop and demonstrate the following learning outcomes. (Categories – Knowledge and understanding (K), Skills and other attributes (S), and Transferable skills (*))

<ol style="list-style-type: none"> 1. Biological psychology, including biological bases of behaviour, hormones and behaviour, neuropsychology, neuroscience, and evolutionary psychology (K); 2. Cognitive psychology, including perception, attention, learning, memory, thinking, language, consciousness and cognitive neuropsychology (K); 3. Developmental psychology, including infancy, childhood, adolescence, socio-emotional development, cognitive and language development, atypical development and social and cultural contexts of development (K); 4. Personality and individual differences, including abnormal and normal personality, psychological testing, intelligence, cognitive style, emotion, motivation and mood (K); 5. Social psychology, including social cognition, close relationships, attribution, attitudes, group processes and intergroup relations (K); 6. Conceptual issues in psychology, including the role of psychology as a science, introspectionist and behaviourist approaches to human behaviour, cognition and computers, historical concepts and current approaches, feminist psychology, psychology in a socio-political context (K); 7. Ethical, theoretical and practical issues in research. In relation to Criminology, the programmes provide opportunities for students to develop and demonstrate the following learning outcomes (K); 8. Knowledge of key concepts and theoretical approaches that have been developed and are developing within criminology and the ability to critically evaluate their application (K); 9. An understanding of the value of comparative analysis (K); 10. An understanding of the relationship between individuals, groups and social institutions in relation to criminology (K); 11. An understanding of the social processes underpinning social change and the criminal justice system (K); 12. An understanding of the nature and appropriate use of diverse research strategies and methods in developing criminological knowledge (K); 13. An understanding of the relationship between criminological argument and evidence (K); 	<ol style="list-style-type: none"> 17. The ability to evaluate policing practices and developments in terms of changing values and relationships between individuals, groups, and public and private agencies in different locations (S); 18. The ability to examine critically the values, practices and processes of governance, including human rights, that underpin youth and criminal justice and agencies which administer sentencing and alternatives (S); 19. Analysing data using both quantitative and qualitative methods, and presenting and evaluating research findings (S*); 20. Employing evidence-based scientific reasoning and examining practical, theoretical and ethical issues associated with the use of different methodologies, paradigms and methods of analysis in psychology and criminology (S); 21. Use of a variety of psychological tools, including specialist software, laboratory equipment and psychometric instruments (S); 22. Defining research problems, generating and exploring testable hypotheses and research questions, choosing appropriate methodologies, evaluating methodologies and analyses employed, planning and carrying out independent empirical research (S); 23. Clear and concise presentation of complex information, both orally and in writing (S*); 24. Computer literacy (including spreadsheets, databases, word processing, e-mail, and the world wide web) (S*); 25. Retrieve and organise information effectively and handle primary source material critically (S*); 26. Teamwork and, where appropriate, collaboration with colleagues, research participants and outside agencies (S*); 27. Problem solving (S*); 28. Sensitivity to contextual and interpersonal factors in behaviour (S*); 29. Independence and pragmatism as a learner (S*); 30. Team working, negotiation and collaboration (S*); 31. Independent and reflective learning (S*); 32. Good time management (S*); 33. Integrating and applying ideas and findings across the multiple perspectives in psychology and criminology, recognising distinctive psychological approaches to relevant issues (S);
--	--

<p>14. An awareness of the distinctive character of both criminology in relation to other forms of understanding, such its the relation to other disciplines and to everyday explanations (K);</p> <p>15. In respect of the Year in Industry programme also to provide an opportunity to gain a range of practical work based experience required to work within an organisation (K);</p> <p>16. The ability to provide an analytical account of social diversity and inequality and their effects in relation to crime, victimisation and responses to crime and deviance (S);</p>	<p>34. Identifying and evaluating general patterns in behaviour, psychological functioning and experience (S);</p> <p>35. In respect of the Year in Industry programme also identify some of the key activities involved in the running of an organisation (S);</p> <p>36. In respect of the Year in Industry programme also distinguish the different commercial and business priorities of employers (S);</p> <p>37. In respect of the Year in Industry programme also demonstrate the complexities and demands of the job application and recruitment process (S).</p>
--	---

Section 7 - Teaching, learning and assessment

Teaching is mostly by means of lectures and tutorials, the latter generally providing a forum for students, with the support of their instructors, to engage in critical analysis and discussion of topics in a smaller and more interactive setting. Seminars, laboratory classes and practical workshops are also key teaching forums. Learning is through participation in teaching sessions, designated reading and completion of coursework. Essays and short written answers ensure that the skills of exposition and critique are developed and evaluated. The College Computer Centre provides IT training and students are expected to meet basic standards in information technology. Assessment of knowledge and understanding is typically by a combination of formal, unseen written examination and coursework. Full details of the assessments for individual courses can be obtained from the Departments

Section 8 – Additional costs

Costs incurred by students while on a Year in Industry vary depending on the nature and location of the placement. For further information please contact our Student Fees Office.

These estimated costs relate to studying this particular degree programme at Royal Holloway. General costs such as accommodation, food, books and other learning materials and printing etc., have not been included, but further information is available on our website.

Section 9 – Indicators of quality and standards	
QAA Framework for Higher Education Qualifications (FHEQ) Level	4-6
Your programme is designed in accordance with the FHEQ to ensure your qualification is awarded on the basis of nationally established standards of achievement, for both outcomes and attainment. The qualification descriptors within the FHEQ set out the generic outcomes and attributes expected for the award of individual qualifications. The qualification descriptors contained in the FHEQ exemplify the outcomes and attributes expected of learning that results in the award of higher education qualifications. These outcomes represent the integration of various learning experiences resulting from designated and coherent programmes of study.	
QAA Subject benchmark statement(s)	http://www.qaa.ac.uk/quality-code/subject-benchmark-statements
Subject benchmark statements provide a means for the academic community to describe the nature and characteristics of programmes in a specific subject or subject area. They also represent general expectations about standards for the award of qualifications at a given level in terms of the attributes and capabilities that those possessing qualifications should have demonstrated.	

Section 10 – Further information

This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate when taking full advantage of the learning opportunities that are available. More detailed information on course units, including teaching and learning methods, and methods of assessment, can be found via the online [Course Catalogue](#). The accuracy of the information contained in this document is reviewed regularly by the university, and may also be checked routinely by external agencies, such as the Quality Assurance Agency (QAA).

Your programme will be reviewed regularly, both by the university as part of its cyclical quality enhancement processes, and/or by your department or school, who may wish to make improvements to the curriculum, or in response to resource planning. As such, your programme may be revised during the course of your study at Royal Holloway. However, your department or school will take reasonable steps to consult with students via appropriate channels when considering changes. All continuing students will be routinely informed of any significant changes.

Section 11 – Intermediate exit awards (where available)

You may be eligible for an intermediate exit award if you complete part of the programme as detailed in this document. Any additional criteria (e.g. mandatory course units, credit requirements) for intermediate awards is outlined in the sections below.

Award	Criteria	Awarding body
Diploma in Higher Education (DipHE)	Pass in 210 credits of which at least 90 must be at or above FHEQ Level 4 and at least 120 of which must be at or above FHEQ Level 5	Royal Holloway and Bedford New College
Certificate in Higher Education (CertHE)	Pass in 120 credits of which at least 90 must be at or above FHEQ Level 4	Royal Holloway and Bedford New College

Section 12 - Associated award(s)	
BSc Criminology and Psychology (CL83)	BSc Criminology and Psychology with a Year in Industry (LC38)
